

LAWN CARE & GROUNDS SERVICES

First impressions! They set the tone for everything that is yet to come. By maintaining freshly cut grass, well-managed trees, blossoming flowers, and manicured bushes we paint the landscape for everyone who approaches your facility. With proper landscape management, you can ensure every first impression is a positive one.

Ambassador Services delivers bright, inspiring spaces through its premium grounds maintenance services for commercial buildings. Our valued clients range from city governments and real estate developers to schools and places of worship, and we understand a broad range of grounds maintenance and landscaping needs.

We know you value reliability and peace of mind, and that is why our business model is based on quality, transparency, and long-term partnerships with our clients. By adhering to strict quality assurance standards, promoting continuous improvement, training, and offering clear communication, we allow you to focus on your most important priorities while we take care of the rest.

Our commitment to carbon-neutral solutions means we ensure the lowest possible environmental impact with our landscaping services. We will never use chemicals that are harmful to your plants, your people, or the air you breathe. We follow best practices so that minimal water goes to waste, and all of the pesticides we use have been EPA-approved. Organic options are also available.

Whether your requirements are few or many, it's our privilege to deliver the highest levels of service, support, and satisfaction. We currently service large accounts including The Woodlands Township's sports fields and parks, Houston Community College, and small to medium size homeowners' associations across the Greater Houston Area.

Our commercial full-service landscaping solutions include:

- › Landscape design and construction
- › Lawn mowing and maintenance
- › Application of mulch to beds and tree rings
- › Tree and shrub care, pruning, and removals
- › Seeding, sodding and hydromulching
- › Herbicide, fungicide, and pesticide treatments
- › I.P.M. (Integrated Pest Management) consulting and implementation
- › Pre- and post-emergent weed control
- › Aeration and top dressing
- › Seasonal color beds and ornamental pots
- › Irrigation system installation, repair, and maintenance (licensed)
- › Water management services and audits
- › Landscape and lawn drainage
- › Emergency storm services

As landscape management professionals, we have the practical knowledge and carry pertinent licenses to nurture and maintain your grounds. We execute our landscaping designs and plans to the fullest, ensuring plants grow throughout every season. We also act as your eyes and ears on the ground to protect against water damage and other potential hazards.

We listen to your needs and build a proposal that meets your goals—we treat every landscaping project like it's our own front yard. Once a plan is in place, we'll offer you weekly reports on our progress on every task or project. An Ambassador Services manager is always available to respond to any of your questions or concerns, 24/7.
